Ethan Brooks

Target role: Machine Learning Engineer

SUMMARY

Ethan Brooks is a third-year Computing Science student at UTS, expected to graduate in December 2025. With hands-on experience in backend development using Python, SQL, Spring Boot, and PostgreSQL, he has resolved technical issues in a helpdesk setting and contributed to a team-built library-booking REST API. He seeks to transition into machine-learning engineering, leveraging his programming and database skills.

EDUCATION

Bachelor of Computing Science, UTS Feb. 2023 – Dec. 2025

EXPERIENCE

Junior IT Helpdesk Assistant

- Resolved account and login issues in a part-time helpdesk role.

PROJECTS

Library-booking REST API Feb. 2025 – Mar. 2025

Technologies: Spring Boot, PostgreSQL

- Developed a library-booking REST API with Spring Boot and PostgreSQL as part of a team project.

SKILLS

Programming Languages: Java, Python, SQL

Frameworks & Libraries: Spring Boot

Tools & Platforms: Git, PostgreSQL
